Annual Index: Volume 32/2001

AUTHORS

Begg, D., & Langley, J. Changes in risky driving behavior from age 21 to 26 years. *32*(4), 491–499.

Cawley, J.C., & Homce, G.T. US occupational electrical incidents, 1992–1998. *32*(3), 359.

Chan, C.C., Luis, B.P.K., Chow, C.B., Cheng, J.C.Y., Wong, T.W., Chan, K., & Chui, S. Validating narrative data on residential child injury. *32*(4), 377–389.

Chen, G.-X., & Hendricks, K.J. Nonfatal occupational injuries among African American women by industrial group. *32*(1), 75–84.

Clapp, J.D., Voas, R.B., & Lange, J.E. Cross-border college drinking. *32*(3), 299–307.

DePasquale, J.P., Geller, E.S., Clarke, S.W., & Littleton, L.C. Measuring road rage: Development of the propensity for angry driving scale. *32*(1), 1–16.

Drakopoulos, A., & Lyles, R.W. An evaluation of age effects on driver comprehension of flashing traffic signal indications using multivariate multiple response analysis of variance models. *32*(1), 85–106.

Faergemann, C., & Larsen, L.B. The mechanism and severity of nonoccupational ladder fall injuries. *32* (3), 333–343.

Freeman, K., LaFleur, B.J., Booth, J., Doyle, E.J., & Pugh, W.M. An actuarial method for estimating the long-term, incidence-based costs of navy civilian occupational injuries and illnesses. *32*(3), 289–297.

Freeman, K., LaFleur, B.J., Booth, J., Doyle, E.J., & Pugh, W.M. Why federal agencies should estimate their long-term occupational injury and illness costs. *32*(3), 277–287.

Fuller, C.W., & Myerscough, F.E. Stakeholder perceptions of risk in motor sport. *32*(3), 345–358.

Goldenhar, L.M., Moran, S.K., & Colligan, M. Health and safety training in a sample of open-shop construction companies. *32*(2), 237–252.

Haines III, V.Y., Merrheim, G., & Roy, M. Understanding reactions to safety incentives. *32*(1), 17–30.

Janke, M.K. Assessing older drivers: Two studies. *32*(1), 43–74.

Jin, D., Kite-Powell, H., & Talley, W. The safety of commercial fishing:

Determinants of vessel total losses and injuries. *32*(2), 209–228.

Koradecka, D., & Dryzek, H. Occupational safety and health in Poland. *32*(2), 187–208.

Lajunen, T., & Räsänen, M. Why teenagers owning a bicycle helmet do not use their helmets. *32*(3), 323–332.

Lam, L.T. Parental risk perceptions of childhood pedestrian road safety. *32*(4), 465–478.

Marcil, I., Bergeron, J., & Audet, T. Motivational factors underlying the intention to drink and drive in young male drivers. *32*(4), 363–376.

McCartt, A.T., Leaf, W.A., Farmer, C.M., Ferguson, S.A., & Williams, A.F. Effects of Florida's graduated licensing program on the behaviors and attitudes of teenagers. *32*(2), 119–131.

Salkever, D.S., Shinogle, J.A., & Purushothaman, M. Employer disability management strategies and other predictors of injury claims rates and costs: Analysis of employment-based long-term disability insurance claims. *32*(2), 157–185.

Sivak, M., Flannagan, M.J., & Miyokawa, T. The use of parking and auxiliary lamps for traffic sign illumination. *32*(2), 133–147.

Smallman, C. The reality of "revitalizing health and safety". *32*(4), 391–439.

Stokols, D., McMahan, S., Clitheroe Jr., J.C., & Wells, M. Enhancing corporate compliance with worksite safety and health legislation. *32*(4), 441–463.

Tarawneh, M.S. Evaluation of pedestrian speed in Jordan with investigation of some contributing factors. *32*(2), 229–236.

Ulmer, R.G., Ferguson, S.A., Williams, A.F., & Preusser, D.F. Teenage crash reduction associated with delayed licensure in Connecticut. *32*(1), 31–41.

Vassie, L.H., & Lucas, W.R. An assessment of health and safety management within working groups in the UK manufacturing sector. *32*(4), 479–490.

Wentz, R., Roberts, I., Bunnv, F., Edwards, P., Kwan, I., & Lefebvre, C. Identifying controlled evaluation studies of road safety interventions: Searching for needles in a haystack. *32*(3), 267–276.

Wigglesworth, E.C. A human factors commentary on innovations at railroad–highway grade crossings in Australia. *32*(3), 309–321.

Williams, A.F., Ferguson, S.A., & De Leonardis, D.M. Physician counseling about safe vehicle travel for children. *32*(2), 149–156.

Zwerling, C. A review of a *Guide to evaluating the effectiveness of strategies for preventing work injuries: How to show whether a safety intervention really works*. *32*(4), 501–503.

TITLES

An actuarial method for estimating the long-term, incidence-based costs of navy civilian occupational injuries and illnesses. Freeman, K., LaFleur,

B.J., Booth, J., Doyle, E.J., & Pugh, W.M. *32*(3), 289–297.

Assessing older drivers: Two studies. Janke, M.K. *32*(1), 43–74.

An assessment of health and safety management within working groups in the UK manufacturing sector. Vassie, L.H., & Lucas, W.R. *32*(4), 479–490.

Changes in risky driving behavior from age 21 to 26 years. Begg, D., & Langley, J. *32*(4), 491–499.

Cross-border college drinking. Clapp, J.D., Voas, R.B., & Lange, J.E. *32*(3), 299–307.

Effects of Florida's graduated licensing program on the behaviors and attitudes of teenagers. McCartt, A.T., Leaf, W.A., Farmer, C.M., Ferguson, S.A., & Williams, A.F. *32*(2), 119–131.

Employer disability management strategies and other predictors of injury claims rates and costs: Analysis of employment-based long-term disability insurance claims. Salkever, D.S., Shinogle, J.A., & Purushothaman, M. *32*(2), 157–185.

Enhancing corporate compliance with worksite safety and health legislation. Stokols, D., McMahan, S., Clitheroe Jr., J.C., & Wells, M. *32*(4), 441–463.

An evaluation of age effects on driver comprehension of flashing traffic signal indications using multivariate multiple response analysis of variance models. Drakopoulos, A., & Lyles, R.W. *32*(1), 85–106.

Evaluation of pedestrian speed in Jordan with investigation of some contributing factors. Tarawneh, M.S. *32*(2), 229–236.

Health and safety training in a sample of open-shop construction companies. Goldenhar, L.M., Moran, S.K., & Colligan, M. *32*(2), 237–252.

A human factors commentary on innovations at railroad–highway grade crossings in Australia. Wigglesworth, E.C. *32*(3), 309–321.

Identifying controlled evaluation studies of road safety interventions: Searching for needles in a haystack. Wentz, R., Roberts, I., Bunnv, F., Edwards, P., Kwan, I., & Lefebvre, C. *32*(3), 267–276.

Measuring road rage: Development of the propensity for angry driving scale. DePasquale, J.P., Geller, E.S., Clarke, S.W., & Littleton, L.C. *32*(1), 1–16.

The mechanism and severity of nonoccupational ladder fall injuries. Faergemann, C., & Larsen, L.B. *32*(3), 333–343.

Motivational factors underlying the intention to drink and drive in young male drivers. Marcil, I., Bergeron, J., & Audet, T. *32*(4), 363–376.

Nonfatal occupational injuries among African American women by industrial group. Chen, G.-X., & Hendricks, K.J. *32*(1), 75–84.
Occupational safety and health in Poland. Koradecka, D., & Dryzek, H. *32*(2), 187–208.

Parental risk perceptions of childhood pedestrian road safety. Lam, L.T. *32*(4), 465–478.

Physician counseling about safe vehicle travel for children. Williams, A.F., Ferguson, S.A., & De Leonardis, D.M. *32*(2), 149–156.

The reality of "revitalizing health and safety". Smallman, C. *32*(4), 391–439.

A review of a *Guide to evaluating the effectiveness of strategies for preventing work injuries: How to show whether a safety intervention really works.* Zwerling, C. *32*(4), 501–503.

The safety of commercial fishing: Determinants of vessel total losses and injuries. Jin, D., Kite-Powell, H., & Talley, W. *32*(2), 209–228.

Stakeholder perceptions of risk in motor sport. Fuller, C.W., & Myerscough, F.E. *32*(3), 345–358.

Teenage crash reduction associated with delayed licensure in Connecticut. Ulmer, R.G., Ferguson, S.A., Williams, A.F., & Preusser, D.F. *32*(1), 31–41.

Understanding reactions to safety incentives. Haines III, V.Y., Merrheim, G., & Roy, M. *32*(1), 17–30.

US occupational electrical incidents, 1992–1998. Cawley, J.C., & Homce, G.T. *32*(3), 359.

The use of parking and auxiliary lamps for traffic sign illumination. Sivak, M., Flannagan, M.J., & Miyokawa, T. *32*(2), 133–147.

Validating narrative data on residential child injury. Chan, C.C., Luis, B.P.K., Chow, C.B., Cheng, J.C.Y., Wong, T.W., Chan, K., & Chui, S. *32*(4), 377–389.

Why federal agencies should estimate their long-term occupational injury and illness costs. Freeman, K., LaFleur, B.J., Booth, J., Doyle, E.J., & Pugh, W.M. *32*(3), 277–287.

Why teenagers owning a bicycle helmet do not use their helmets. Lajunen, T., & Räsänen, M. *32*(3), 323–332.
